Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments:

In regards to claim 1, Mr. McKeown indicated that independent claim 1 is novel and non-obvious in view of EP '892, in that EP '892 does not disclose the Q value or the class of tools in claim 1. Counsel will delete appendix A and incorporate by reference a related US Patent into the present application, the nomenclature of figures 2-4 will be corrected to match the specification, a brief description of the drawings will be included in the specification, and titles will be added to the specification..
